practice, however, has the potential of actually making it  
more difficult to retrieve the lesson material in other  
contexts, because knowledge tends to be especially  
context-bound when learners elaborate the new material with  
details of the context in which the material is learned Eich,  
When a subject is taught in multiple contexts, however, and  
includes examples that demonstrate wide application of what is  
being taught, people are more likely to abstract the relevant  
features of concepts and to develop a flexible representation  
of knowledge Gick and Holyoak, The problem of overly  
contextualized knowledge has been studied in instructional  
programs that use case-based and problem-based learning.
